Spiral Lids

How To:

A 16 oz. sour cream container lid (or bigger) is the perfect size.

The lid can be colored in cool colors before you cut it out. (Sharpies or other permanent markers)

Cut the lip off the lid.

Cut the lid into a spiral. When you get to the center, stop and leave a 1" solid center. Take a hole punch and punch a hole in the center.

Optional: poke a shower curtain ring through the hole and close it. These will hang off the kennel doors for the cats to play with.
